RE: West Ridge Resources, Inc. "West Ridge" Mine - Application for a Permit Revision,
Storage Trailer, Task ID 2380

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGM) December 8, 2005 request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification:

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Storage Trailer, has determined that it proposes to site a vendor supplied clothes storage trailer on the northwest side of the Bathhouse/Lamp House building at the West Ridge mine, Utah State permit C/007/041.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Storage Trailer with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the December 8, 2005 request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.
